School of Accountancy

Curriculum

Bachelors of Science in Accounting

History

The School of Accountancy was established to meet the growing demand for highly qualified professionals in the many specialized areas of accountancy. The school provides a professional education to prepare students for careers in public accounting, corporate accounting, financial management and a variety of careers that demand a high level of proficiency in accounting.

Through a traditional four year curriculum leading to a bachelors of science degree I accounting, the school's program encourages scholarly professional research that contributes to the advancement of accounting theory and proactive. Additionally, it provides students with the foundation for passing professional certification examinations such as the CPA, CMA and the CIA examination. The program also provides the necessary foundation to allow student to pursue advanced degrees in business and related areas.

Degree Requirements

Accounting majors are required to complete 128 semester hours of which 30 credit hours must be in the filed of accounting (Above the principles level). A grade of "C" or better must be attained in all accounting courses presented to fulfill the equipments in the major. Accounting electives in specialized areas are available to advance students.

The 150 Hour Requirement

While the traditional four-year program fulfills the educational requirement for certain areas of accounting, Louisiana requires a baccalaureate degree and no less than 150 hours of University course credit to take the Certified Public Accountants' CPA examination. A number of other states have similar requirements and prospective candidates are advised to contact the respective State Boards of Accountancy. Individuals desiring to meet these requirements can do so by completing a minimum of 22 additional hours beyond the hours required for the baccalaureate degree
